April 2011 Club Meeting

PLACE: Silliman Community Activity Center
 6800 Mowry Avenue, Newark CA 94560
 510- 742-4400

DATE: **Wednesday, April 27** (Note day and date)
TIME: **6:30pm** (Note new time)

- Wed. April 6 Fly Fishing Volunteers– VA Hospital, Livermore, 10am to 11:30am
- Wed. April 6 BOARD MEETING 7:00 PM Fremont Adult School, Room N-9
- Sat. April 9 CLUB BREAKFAST: At the Denny’s in Hayward on Whipple – 9:00 AM
- Wed. April 20** FLY TYING 7:00 PM Fremont Art Center, 3375 Country Dr. Fremont
- Wed. April 27** CLUB MEETING - Silliman Community Activity Center, 6:30pm
- Wed. May 4 Fly Fishing Volunteers – VA Hospital, Livermore, 10am to 11:30am
- Wed. May 4 BOARD MEETING 7:00 PM Fremont Art Center, 3375 Country Dr, Fremont
- Fri. May 6 Fly Fishing Volunteers – VA Hospital, Menlo Park, 10am to 11:30a
- Wed. May 14 CLUB BREAKFAST: At the Denny’s in Hayward on Whipple – 9:00 AM
- Wed. May 18** FLY TYING 7:00 PM Fremont Art Center, 3375 Country Dr., Fremont
- Wed. May 18 Fly Fishing Volunteers– VA Hospital, Livermore, 10am to 11:30am
- Sat. May 21** **NCCFFF Fly Fishing Roadshow, Niles Banquet Hall, 37270 Niles Blvd, Fremont**
- Wed. May 25** CLUB MEETING - Silliman Community Activity Center, 6:30pm

MAINSTREAM is the monthly newsletter of the Mission Peak Fly Anglers',
P.O. Box 7263, Fremont California. 94537.

E-mail address list

The club is compiling an e-mail address list for the use of club members. If you want your address included or wish to have a copy of the list, send an e-mail to Craig Gittings.

----- Notice -----

Members

The Newsletter will be coming out on the 15th of each month. Send your articles or information to the editor by the 12th of each month.

BUDDING FLY FISHING WRITERS

Here is your chance to gain some experience writing about your fabulous fly fishing trips to places near and far. The club newsletter is seriously lacking in members written and photographic accounts of our fishouts. Of course you may not think a trip to Putah Creek is worthy of such notoriety, but remember, many members have never been there and would welcome a description of how your fishout went. And as for a trip to Alaska or Baja, a story of your adventure would be most appreciated. Send articles to the editor

NOTE FROM TREASURER, BILL PEAKES – Mission Peak Fly Angler's patches and pins are available from Bill at a nominal price. New members should have received either a pin or a patch when they joined; if not, call Bill Peakes.

Bill Peakes

The Vice-President's Message

For this month our president has done what all good presidents do... delegate!
This month it will be the Vice-President's message.

I thought I would devote a little space to Mission Peak's Trout in the Classroom Program. This is my 4th year of being involved and my first as the coordinator. It has been quite an experience and gave me even more appreciation of the work Ken did in those first years. We had 8 volunteers this year: Myself, Ken Brunskill, Wayne Culp, Larry Dennis, Malcolm Dunn, Judy Huff, Dean Lewis and Frank Rodrigues. This year we met with 12 classrooms over a six week period and talked to over 460 students. Over 180 students along with their teachers and assorted parents attended the release of the fry into local lakes. It was a good chance to promote our concerns with preserving and improving our environment. We released 311 trout. All in all, a good experience for all involved. We welcome any members who might be interested in joining us next year. Just contact any of those mentioned above for more information.

Meanwhile, this spring looks like its going to be a little late. When all this snow starts melting Sierra streams are gonna be high and fast. Stillwater is starting to look like the best bet for early flyfishers with a bad case of cabin fever.

Ed Huff

***** Video Library *****

MPFA Maintains a 200+ library for the benefit of its members and we need the help of every member to keep it available to the entire membership.

We ask that you check out a video (Honor system) and return it within 2-3 months, After the 2nd month the librarian will send the borrower an email or note reminding them that there is a video(s) checked out in their name.

After the 3rd month the librarian and/or the secretary will send a note asking for the video or \$40 to cover the purchase of its replacement. Thanks

Your Video Librarian
Ken Brunskill

NOTICE NOTICE NOTICE NOTICE NOTICE

Fish the Deschutes River with our March speaker (Bob Alexander) ! I have a \$300 certificate for a lucky winner. I need to sell 100 chance squares @ \$2.50 ea or \$10 = 6 squares. See his website at www.rainbowbendflyfishing.com

There is one Orvis Access 5wt 4 piece 9ft rod, case and a Battenkill reel !!. We need to sell 200 tickets and then on the following month we pull the winning ticket. \$2 = 1 ticket; \$10 = 6 tickets; \$20 = 13 tickets. For more info contact Stephen Culp

Mission Peak Fly Anglers Board Meeting - April 6, 2011

President Dean Lewis brought the meeting to order at 7:10 pm. Present were V.P. Ed Huff, Treasurer Bill Peakes, past President Wayne Culp, Board Members: Frank Rodriguez, Stephen Culp, Ron Smith and Malcolm Dunn. Also present were George Bouvoine, Ken Brunskill, Jeff Lorelli and Mitch Matsumoto.

Old Business:

- **NCCFFF** - April 9th – NCCFFF Hall of Fame Dinner, Napa, \$70 per person
- **Speakers:** April: John Gantner- Crossing into Canada
May: 25th Lance Gray - ?
June: Bob Flasher - Redwood Creek Restorations or Trout in the Classroom July: Casting night
August: Craig Schuhmann - Williamson River
September: Rob Anderson - Pyramid Lake
October: Ed Huff, Trout in the Classroom

New Business:

- **Treasure's Report** - Bill gave a report that we have a paid Silliman Center through December. Balance is good. Will pay insurance of \$461 and PO Box of \$116.
- **New Location:** The Board met at a new location in a building managed by the Fremont Arts Council. We have booked the 1st and 3rd Wednesday's for Board Meetings and Fly Tying. Ken move and Malcolm seconded that we formally approve this new location. Motion carried. Room rental is \$10 per night. We can go past 9:00pm
- **NCCFFF Road Show:** May 21st is the Date for the NCCFFF Road Show at Niles Hall – We have this location available, but the Board wanted more information regarding how NCCFFF will help put this on. As one member said, *"They show up to teach, but we do all the work. Isn't it supposed to be that they help us with the details?"* Board wanted more info. Ed moved and Malcolm seconded that we table the event until we get more info on the event. Motion passed 7 to 1. We need help. Who, what, how, etc from NCCFFF.
- **Annual Installation Dinner:** Visited and liked Sunol Event Center. As of the meeting we are waiting for costs.
- **Fly Tying:** We plan to move fly tying to the 3rd Wednesday of the month since we have found our new location per above item. Jack Davis was mentioned as the person tying this month.
 - **Kistler Ranch:** Kistler rental is \$350.00. Much discussion on holding the event. Ken moved and Malcolm seconded that we cancel the event. Motion failed 3 / 4 with one abstention. Malcolm can not cook for the event. Ken moved and Stephen seconded that the Board set a \$25 per person fee and we must have 14 confirmed members signed up by April 20 or we will cancel event. The event will also be a "bring your own lunch and water" outing. Motion passed. Bring your own supplies, chairs, shade, food, etc.
 - **TIC:** Ed gave us an update and interesting facts on the program. Also, the version used by the State has been approved and will now have 5000 copies produced and distributed by the State. Ed needs a big "THANK YOU" for all the work he has done this year in running the club's TIC program.
 - **Veterans Program:** Ken gave us an update on the May 5 and 6 Shadow Cliffs fishing program. Volunteers should arrive by 7:00am.
 - **Boy Scouts:** Jeff gave us an update on the April 16th and 23rd program at the casting ponds in Oakland. He has 9 scouts signed up. He was looking for 10 and could take a late entry or two. Several club members have volunteered to help.
 - **Raffle Items;** Stephen discussed the processes for using some of the donated items for raffle prizes. The Board agreed with his suggestions. One item will be raffled using "purchase of squares". Another will be auctioned. We agreed with his process for using the Sage rod certificates.
 - **Newsletter:** Malcolm asked for items for the newsletter. Flies, buy/sell, tips, etc. Anything members can submit is appreciated.
- **Motion to adjourn:** Malcolm moved and Ed seconded, motion passed and the meeting was adjourned at 8:55pm

Respectively submitted: Dean Lewis, President.

Dioum, Senegalese ecologist **Meadow restoration may be inexpensive method for water storage**

By [Dana M. Nichols](#)

Record Staff Writer

April 26, 2009 12:00 AM

SAN ANDREAS - Millions of dollars in federal money will begin flowing into high Sierra meadows this year in hopes that those meadows can be restored so they will store more water until late summer, when thirsty farms and cities downstream need it most.

The National Fish and Wildlife Foundation - a quasi-private foundation created by Congress that channels both federal and private dollars to habitat work - recently decided to make restoration of eroded meadows in California's Sierra Nevada mountains one of its priorities.

Although various species of birds, fish and animals would benefit, that isn't the biggest news. The big news is that such work may be a less expensive way to expand water storage in some cases than building new dams and reservoirs.

According to a Sierra Nevada Meadow Restoration draft business plan completed by the foundation in March, repairing all of the degraded Sierra meadows in California could increase late-summer water storage by the equivalent of 50,000 to 500,000 acre-feet per year.

At the high end, that's the equivalent of building a medium-large reservoir larger than Camanche Reservoir on the Mokelumne River. And the foundation said that based on recent restoration projects, the additional water would cost \$100 to \$250 per acre-foot over the first 10 years, significantly less than the \$330 to \$685 per acre-foot cost of water from a reservoir proposed in Colusa County.

An acre-foot is enough water to cover one acre one foot deep, and is generally considered about enough water to supply two typical California homes for a year.

The Foundation plans to spend \$10 million to \$15 million in the next decade on such projects, and has set a goal of improving water storage in Sierra Nevada meadows by at least 20,000 acre-feet by 2014.

"I am going to do all that I can to get even more federal dollars directed toward this," said Timothy Male, director of wildlife and habitat conservation for the foundation.

Ultimately, the foundation hopes to leverage \$200 million for meadow restoration. That's because a variety of other interests, including ranchers whose cattle graze in the meadows and water agencies downstream, also would benefit from healthier meadows. Meadow restoration is called for by California's State Water Plan, for example.

And that, in turn, could mean jobs as heavy equipment operators and work crews move soil and repair vegetation and stream beds.

"Certainly up in the Stanislaus National forest and surrounding areas there are a large number of meadows that would be eligible for that kind of funding," said Barry Hill, regional hydrologist for the Forest Service's regional office in Vallejo.

"The idea would be to store more water in the meadows so it doesn't run off right away in the winter and the springtime," Hill said. Hill added that his office has a grant right now to pay for a detailed study to calculate more precisely how much additional water could be stored statewide through such work.

One likely project here is known as Leland Gully, which runs through a meadow area near Leland Creek and Herring Creek northeast of Strawberry in the Stanislaus National Forest. Leland Gully is on a short list of 27 sites that the foundation's draft plan deems "ready-to-proceed meadow restoration projects."

"We are going to be completing the design this summer," said Tracy Weddle, hydrologist for the Summit Ranger District of the Stanislaus National Forest.

Weddle said Leland Gully is 1,700 feet long and averages 10 feet in depth and 35 feet in width. She said restoration techniques could include transporting massive amounts of soil and wood to fill the gully, or creating a series of "plugs" in the gully that would form ponds behind them.

Annual Trout Bum Award

Starts Jan 1, 2010

Awarded by MPFA Board of Directors at December board meeting

Requirements: *AMPLIFICATION*

Candidates must:

Have fished 10 or more waters during the calendar year (no private pay to play waters) *This means that the general public have unrestricted access at all times, without any special fees to the waters fished*

Waters may be tributaries of any river or lakes domestic or international *Meaning any named stream, river, or section of river (As in Upper Sacramento R. or Lower Sacramento R. - would be two waters) in any country.*

Used fly fishing tackle only *Simply that!*

Have fished for trout (This is a Trout Bum Award) *Simply that!*
The award generally will go to the person who fly fished for trout in the most public waters

Have reported to the club and shown photos to the club at a regular meeting
Reporting means informing the membership-simple as that - Does not mean that the person must give a slide show presentation, just tell the club where you fished, how you did, what you used - show some pictures.
The purpose of the award is to encourage members to explore, fish as many new waters as they can, tell the membership about the experience there-fore encouraging others to do likewise.

Chairperson: Ken Brunskill

Fly Fishing Program for Vets..... Attention Mission Peak Members..... Fly Fishing Program for Vets

Who would like to join us and be part of helping our veterans through this worthwhile program?

What you might ask is involved? It can be as little as a group of us going out to Livermore and and/or Menlo Park once a month to teach fly casting and fly tying to our wounded veterans. It could go as far as accompanying a group of veterans on a fishing trip to be their 'gillie' and personal assistant on that trip. I have made the initial contact at Livermore VA Nursing unit and there seems to be an interest, but I cannot do it alone.

I'd bet we can get funding help from the FFF, NCCFFF, the Elks Lodge, Kiwanis, VFW, and other service organizations, all we need to do is give a little of our own time to those who have given so much for us. If interested please contact me, Thanks. Ken Brunskill

Editorial

Do you have friends that want to learn something about fly fishing? On **Saturday, May 21, 2011**, starting at **10am** and concluding at **3pm**, Mission Peak Fly Anglers and the Northern California Council of Federation of Fly Fishers (NCCFFF) will present "An Introduction to Fly Fishing" at the Niles Banquet Hall, 37270 Niles Blvd (Niles District), Fremont, CA. The NCCFFF will provide certified casting instructors to teach casting to beginners and to provide expert aid to experience casters. There will also be expert fly tyers to teach beginning fly tying. Members of Mission Peak Fly Anglers will be there to assist in all phases of this event. Be sure to check page 12 of this newsletter. **Remember this date and bring the family and friends.**

This poster was designed by our Vice President, Ed Huff.
Until next time, Malcolm Dunn, editor

Fly Of The Month

BLACK AND SILVER NYMPH

HEAD ORANGE TUNGSTEN BEAD

Monthly Programs

DATE	SPEAKER	PROGRAM TITLE
April 27 Wednesday	John Gantner	Crossing Into Canada
May 25 Wednesday	Rich Lobrovich	Rooster Comb Ranch
June 22 Wednesday	Bob Flasher	Redwood Creek Restorations or Trout In The Classroom
July 27 Wednesday	Casting and pizza night	
August 24 Wednesday	Craig Schuhmann	Williamson River
Sept 28 Wednesday	Rob Anderson, Reno Fly Shop	Pyramid Lake

April Program

John R. Gantner

John has been fly fishing for over 40 years and fly tying almost as long. He has had over 50 articles published in national fly fishing and fly tying magazines. He does demonstration fly tying at various venues including the FFF national conclaves and The Fly Fishing Show. He is on the Dr. Slick advisory staff. He has been presenting a number of various fly club programs for a few years. John is a writer, photographer, and full-time fly fisher, and presents all of his programs as an angler and for anglers. He has guided, and managed a fly fishing lodge. John lives in Redding with his dog Riley. He is a long time member of Shasta Trinity Fly Fishers.

The Slip Into Canada Program provides the when, where, and how of a fishing trip just over the border into Canada. Fishing the way Montana was 40 years ago. Seven rivers are covered, all offering great dry fly fishing. An inexpensive trip that gives the angler an amazing sampling of fly fishing in Canada. John has been fishing this area and leading groups of anglers to these great rivers for over ten years, and provides everything you need to know to Slip Into Canada yourself.

FLYFISHING TIPS

Here are 5 tips that will help you score, and stay safe, when you re casting into a rushing river.

Explore before you fish: Over the winter, there s a good chance the character of your local river has changed somewhat. There may be new deadfalls, places where holes deepened or shallowed out, etc. Take the time perhaps before the season starts to look for new areas that might provide good trout habitat. Especially keep your eyes out for places along the edges of the river where you ll be able to fish in high water.

Wade shallow, slowly, and carefully: Moving water is invariably more powerful than you think it is, so don t wade out up to your chest to reach that spot on the opposite bank. No fish is worth getting washed downriver. When the water is high, it s usually murky, as well, which means you often can t see what you re stepping on. There could be logs, big rocks, or a deep hole down there, so don t make a step without feeling around with your foot first.

Don t walk in the fish: Before you charge into the water to cast behind a midstream boulder, look for good holding spots along the bank. Trout like to get out of the current as much as possible, and during high water, they migrate to the margins of the heaviest current. Focus your attention on trout lies along the bank an indentation in the bank, a rock, some dead wood, etc. where a fish could rest and still have food provided by the current. You might be amazed by the size of the trout you can catch within 2 feet of shore, or even under cutbanks.

Use big flies: This is not a time for match-the-hatch tactics. Conehead streamers that move a lot of water, big stonefly nymphs, or flashy attractors such as Copper Johns in sizes larger than you d normally use will get a trout s attention in high water. Strangely enough, black is one of the best colors for dark-water fishing, although white and fluorescents often work well, too. Patterns that offer a lot of eye-catching motion are a plus.

Use stout tackle: Because you re fishing big flies in heavy water, go up a size in rod, line, and tippet. If you normally fish a 5-weight, break out the 6 or 7. Chances are, you re going to be snagging junk on the bottom, or you may need to haul a big fish out of some bushes against the bank. Since visibility is low, you can get away with heavier tippet. Using a sinking tip or a longer leader than normal will help get your flies down in the current where the fish are.

Submitted by Dean Lewis

**MISSION PEAK FLY ANGLERS
2011 FISHOUT LIST**

DATE	LOCATION	TYPE OF FISH	FISHMASTER	COMMENTS
May 7	Kistler Ranch	Bass and Panfish	Craig Gittings	Saturday fishout and BBQ
May	Burney Area	Trout	Wayne Culp	Weekday fishout??
June 1-11	Yuba, American River, or Sacramento	Shad	Jeff Lorelli	Float dates still available with Excellent Adventures; call Al Smatsky 209-368-9261; Make your reservations now!
June 24-26	Manzanita Lake	Trout	Mark Kaharick	Potluck BBQ and campout!
June	American River	Shad	Ken Brunskill	Day trip
June - July	Santa Cruz	Surf Perch	Craig Gittings	Leave Fremont at O'Dark 30
Sept	Toulumne Meadows	Trout	Wayne Culp	Camp Out
Sept	Californian Stillwater Ramble	Trout	Ken Brunskill	Central Sierra stillwaters Combined with Clark's Fork fishout
Sept 10-11	Clark's Fork	Trout	Bill Peakes	Potluck BBQ
Sept 23-25	Pit/McCloud Rivers	Trout	Jeff Lorelli	Joint fishout with the Tracy club at the PG&E cabins above Pit 5; approx cost is \$50/person/night for cabins
Oct	Davis Lake	Trout	Mitch Matsumoto	

The above fishout calendar is tentative and subject to change. Always contact the fishmaster the week of the fishout to be notified of changes due to weather and unforeseen circumstances. Also check the newsletter for detailed information on fishing tackle, flies, directions and accommodations, as recommended by the fishmaster.

Note that only the fishouts shown in **BOLD** on this calendar are actually confirmed at this time; all others are tentative. The actual dates of wintertime fishouts are highly dependent upon the weather conditions and will be confirmed by the fishmaster the week of the fishout.

Your ideas for fishout locations are always welcomed by the club. Phone Jeff Lorelli to volunteer as a fishmaster. The qualifications for a fishmaster are that you have a place in mind, know how to get there, and would welcome some fishing companions. That is it, so sign up now!

Notice

If your name is on this fishout list as a fishmaster and there is no date, please contact Jeff Lorelli to update this chart.

Heritage Trout 3

July 17, 2010

With the Warner Lake Redband Trout successfully caught and released by Ken Brunskill and me. We were focused on finding our second Heritage Trout. The Goose Lake Redband.

The Goose Lake Redband is found in the water drainage feeding Gooselake from the eastern side of Gooselake. Lassen Creek, located east of Goose lake is a prime location for this trout as is nearby Pine Creek. We were conveniently located on Pine Creek and decided to search for the Gooselake Redband on this stretch of water.

Shortly after lunch we were off in search of our next target.

We decided to fish Pine Creek before heading to Lassen Creek. Maybe ten miles down the road from Cave Lake Campground. We located some nice fishable water on this somewhat small creek. After getting several takes but none landed we worked our way up stream and I landed the first of our Goose Lake Redband. The pressure was now on Ken. Ken is an extremely experienced fly angler and he shows it. He must have caught 6 or 8 browns until he decided to go back to the spot where I had caught mine. The pocket had settled for sometime now and he had no problem landing and releasing his Gooselake Redband trout.

Next up the McCloud Redband.

(conservation continue from page 5)

Either way, the water table in the meadow would rise to its old level, invasive weeds would be discouraged, and the area would stay wet until late in the summer. Weddle said she is applying for a variety of grants to fund the roughly \$150,000 project and hopes to do the restoration work in 2010.

Wildlife also benefits from meadow restoration. In the past, groups such as the California Deer Association and the Mule Deer Foundation have provided both money and volunteers for meadow restoration work in the Stanislaus National Forest, Weddle said.

And research done recently on Stanislaus confirms other benefits, Weddle said. "That research showed that functioning meadows stored more water and stored more organic carbon than nonfunctioning meadows."

San Jose, CA 95128
(408) 961-6450

SIMMS SEE Abel TIBCO GARDAR fishpond

We'll clean, research, describe, and take photos of your gear.

LELAND Upgrade Program

An Easy Way to Get the Latest Gear.

- Give us your unwanted gear and we'll sell it for you on **ebay**. In return we'll reimburse you with a gift certificate of the net sale amount. Only the ebay and PayPal fees are deducted. The remaining net sale value goes directly to you. **It would cost you the same** if you listed and sold the gear yourself, but with this program - **we do all the work!**

Call or email us to get started: 866-672-1959, ebay@FlyFishingOutfitters.com
